

# DYE VIS 606

---

Physical Properties – Blue free flowing powder

**Melting Point – 206°C**

**Lambda Max – 606 nm**

**Absorptivity – 164.24 (L g<sup>-1</sup> cm<sup>-1</sup>)**

**Solubility in Organic Solvents – Acetone, Methanol **Very Water Soluble****

**Thermal Stability - can be used in inks and coatings.**

**Light Stability – Weak light stability. Add 0.50% - 1.00%Dye VIS 347 to block UV energy.**

**Application:** Used to block 500-700nm range in inks coatings and polycarbonate

249 Homestead Road, Hillsborough, NJ 08844 USA
